

I love the law as implemented in Indiana. Prior to this law I selected caller ID just to try to filter this junk. After that I looked at the call filters as shown on TV. I was fed up with being interrupted while trying to spend quality time with people. The law as passed in Indiana saved me money (I didn't buy the TV product), relieved a great amount of frustration from our lives, and has been a real blessing. LEAVE THE INDIANA LAW ALONE. DON'T TAKE AWAY MY RIGHT TO REQUEST THESE PEOPLE QUIT CALLING ME. I don't want that guy who called me 4 times in one week to talk to me about my septic tank to ever call me again! Let Indiana keep it's law as written.
